

SHITAL RAWOOL

Python Developer

7620452826 | rawoolshital@gmail.com | <https://www.linkedin.com/in/shitalrawool> <https://github.com/rawoolshital-91> | Pune, India

PROFESSIONAL SUMMARY

Results-driven Python Developer with expertise in designing, developing, and maintaining scalable and secure web applications. Proficient in Python, Flask, Django, SQL, HTML, CSS, REST APIs, SQLAlchemy, Git with experience in backend development. Skilled in object-oriented programming, analytical problem-solving, and focused on building high-performance and user-centric applications.

WORK EXPERIENCE

Birlasoft

June 2024 – Dec 2025

Business Consulting Specialist(Python Developer)

Deployed to client site — Northern Trust (Global Banking Institution, USA) — contributing to full stack Python development, automation, and internal tool development within the bank's network monitoring and operations domain.

- Developed a full-stack internal dashboard using Python (Flask) and HTML/CSS to visualize network monitoring data from SolarWinds, enabling real-time status tracking for operations teams.
- Wrote SWQL queries in SolarWinds to extract device health data including CPU load, memory usage, and node status,
- Collaborated with Northern Trust's operations and technology teams to gather requirements, deliver secure and compliant solutions, and support network infrastructure monitoring across the bank's global environment.
- Possess a foundational understanding of software architecture and system design principles, including scalability, maintainability, and modular application development

Vodafone Intelligent Solutions

March 2022 – Dec 2023

Assistant Manager

Project 1 – Juniper SDWAN

- Demonstrated a strong understanding of network security principles and implemented best practices utilizing tools such as CloudShell, JIRA portal, PuTTY, and Juniper SDWAN portal.
- Conducted training sessions for clients and internal stakeholders on network-related topics, including security best practices and Juniper SDWAN technologies.

Project 2 – Cisco Meraki

- Managed critical network evaluation tasks including device integration, live assessment, feature validation, defect identification, and bug rectification for Cisco Meraki.
- Utilized tools like JIRA portal, ALM portal, PuTTY, and Cisco Meraki portal to deliver solutions and address network challenges.

GTT Communications Inc.

May 2021 – Nov 2021

Network Analyst

- Spearheaded service delivery for a diverse portfolio of 100+ clients, consistently upholding impeccable service quality.
- Applied a structured ticket ownership model to systematically achieve the desired Mean Time to Resolve (MTTR) and consistently delivered precise resolutions for customers.
- Fostered and maintained strong international relationships, managing clients across the USA, UK, Germany, Singapore, Hong Kong, Malaysia, Japan, and South Africa.

Tata Communications Ltd.

July 2018 – April 2021

Customer Service Executive

- Demonstrated hands-on expertise with Cisco router configuration and troubleshooting.
- Managed a diverse clientele, both domestic and international, delivering technical support.
- Experienced in WAN and LAN connectivity, routers, wireless, and security.
- Supported the service assurance process, aligning with team targets and facilitating bridge calls and web conferences for effective troubleshooting with customers and clients.

Tata Communications Limited (via Prompt Personal Consultancy Services Pvt.)

Oct 2016 – Feb 2018

Network Associate Engineer

- Proficiently managed and resolved escalations, ensuring efficient issue resolution.
- Demonstrated hands-on expertise with Cisco, consistently delivering effective network solutions and maintenance.
- Maintained meticulous documentation and report creation, ensuring comprehensive records for troubleshooting, maintenance, and future reference.

PROJECTS

Blog Management System

- Developed a full-stack Blog Management System using Django, Django REST Framework, HTML, CSS, JavaScript, and Bootstrap.
- Implemented CRUD operations for blog posts and comments with secure authentication and role-based access control.
- Designed and managed database models using Django ORM with proper validation and error handling.
- Built a responsive and user-friendly interface while optimizing application performance and usability.
- GitHub Link: <https://github.com/rawoolshital-91>

Personal Portfolio — Flask | HTML | CSS

- Developed a responsive personal portfolio website using Flask, HTML, and CSS to showcase projects, technical skills, and professional experience.
- Personal Portfolio Link: <https://github.com/rawoolshital-91>

TECHNICAL SKILLS

- **Programming Languages:** Python, SQL
- **Frontend Technologies:** HTML, CSS
- **Backend Frameworks:** Flask, Django
- **Backend Technologies:** REST APIs, SQLAlchemy
- **Libraries:** Pandas, NumPy, Matplotlib, Seaborn
- **Developer Tools & Platforms:** Git, GitHub, Jupyter Notebook, VS Code
- **Certifications:** Full Stack Python Developer (Jan 2026 – May 2026)

EDUCATION

BE in Electronics & Telecommunication (ETC)

2016
